AUDIO VISUAL &
VIDEO SYSTEMS
DESIGN &
CONSULTING

DOVETAIL ENTERPRISES, LTD. provides complete planning, budgeting, design, equipment specification, procurement, project management, installation, integration and documentation of all types of audio visual and video systems.

We provide these services to Architects, Designers, General Contractors and Owners.

We apply our expertise and services to boardrooms, conference centers, multimedia classrooms, distance learning centers, videoconferencing facilities, training centers, surgical short procedure units, operating rooms, theaters, lecture halls and command and control centers.

We serve the Corporate, Medical and Educational communities.

DOVETAIL ENTERPRISES, LTD. provides professional, independent consulting services. We are not equipment manufacturers, dealers, representatives or vendors.

We provide attention to detail in every service we perform from initial needs analysis to final documentation and training.

We provide system flexibility for progressive upgrading with changing technologies. And, we provide long-term maintenance and service support.

We are Cost Conscious.
We are Knowledgeable
We are Meticulous.
